## REMOVE MOULD AND CONDENSATION

Keep your home free from condensation and mould with the Ebac 2400E Dehumidifier. This portable unit boasts a huge 12L extraction rate to help create a healthier and more comfortable environment for houses with up to 2 bedrooms. This ultra-quiet dehumidifier also features an antibacterial filter and a carbon filter to remove odours and clean the air while lowering the humidity levels; giving you the best of both worlds.

**SAVE UP TO £50 A YEAR** This portable unit boasts a intelligent software system that constantly monitors the temperature and humidity in your home. It automatically runs and sleeps when it needs to. This makes it more economical to run and can save you up to £50 per year in running costs compared with humidistat controlled dehumidifiers.

## AUTO POWER OFF

The water tank is conveniently located at the front of the unit for quick and easy access. To help to save you money and prevents any leaks, the 2400E will automatically turn itself off once the water tank is full.

## IDEAL FOR THE UK CLIMATE

Thanks to Ebac's exclusive Intelligent Defrost technology, the 2400E Dehumidifier operates effectively at low temperatures as low as 3°C - making it essential for the British climate.

## DRY CLOTHES QUICKLY

If you're drying your clothes indoor then you'll be pleased to know that there is a boost setting to help speed up the drying time. This means you won't have to keep your heating on as long to dry your clothes, thus reducing your energy bills.
