

# Product Information

## What stands out

- Guaranteed to eliminate condensation, dampness, mould and odours around your home
- The only dehumidifier made in Britain for the British climate
- 21 litre extraction rate with low power consumption, operates effectively within any environment
- Exclusive energy saving Smart Technology detects when to operate automatically creating a damp free, warmer and healthier home
- Multi-purpose dehumidifier with Air Purification mode and 8 hour laundry drying boost
- User friendly features designed with you in mind including clear LED display and integrated carry handle for complete portability
- 2 fan speed settings including Quiet Mode

## The details

This portable dehumidifier boasts a huge 21L extraction rate to help create a healthier and more comfortable environment in your home, free from condensation and mould. It features a intelligent software system that constantly monitors the temperature and humidity in your home and switches on and off accordingly. It's incredibly economical to run and can save you up to £50 per year in running costs compared with humidistat controlled dehumidifiers. Plus, once the water tank reaches its limit, the dehumidifier automatically shuts down to avoid any chance of overflowing, for you to then simply remove and empty the water tank at the front of the unit.

Thanks to Ebac's exclusive Intelligent Defrost technology, you'll be able to use the dehumidifier at temperatures as low as 3°C, which is perfect for the British climate. You'll also be pleased to know that there's a special function designed to significantly reduce the drying time of damp laundry when drying indoors, which is especially useful over the winter months. This means you won't have to keep your heating on as long to dry your clothes, thus reducing your energy bills! Plus, the dehumidifier also comes with an antibacterial and carbon filter that work to remove odours and allergens from the air, giving you the best of both worlds.

## Essential info

- Suitable for up to 5+ bed homes / (225m<sup>2</sup>, 450m<sup>3</sup>)
- Maximum extraction 21 litres per day at 32C 90% RH
- Made in Britain for the unique British Climate
- Ebac Exclusive Energy Saving Smart Technology
- Electronic controls for ease of use
- 8 hour laundry boost
- Air Purification Mode
- Patented Intelligent defrost system
- Built-in carrying handle
- 2 speed fan settings
- Quiet Mode
- Built in cable tidy
- Container full indicator and automatic shut off
- Power-on indicator
- Front access to water container
- Standby Mode
- No-Spill water container (3.5 litre)
- Activated Carbon Filter for a healthier home
- Optional Antibacterial filter
- Permanent drainage facility
- 2.1m cord
- CE approved
- Minimum operating temperature of 3C
- Height 545mm Width 340mm Depth 265mm
- Weight 13kg
- Power Consumption 320W
- 2 Year Manufacturer Warranty
